TROUBLE IN THE CONGRESS.

Delegates Who Object to Blaine as President of the Congress. CHICAGO, Oct. 3 .- A Washington special to the Herald, democratic, says Blaine's American congress, whose surface has appeared so tranquil, really started off with a storm which at one time threatened to wreck the hopes of its projector. The rouble was all about Blaine being elected resident. On Tuesday, when it became apparent the secretary of state would be chosen to preside, the Central and South American delegates went into secret session, and the proposition to make Blaine president of the congress was denounced as unfair, lilegal and unprecedented. The point was made that Blaine was not a member of the congress; that he could not preside continuously. The conference preside continuously. The conference lasted till midnight. On adjournment several delegates declared that he would not attend the meeting of the congress the next day at which Blaine was to be elected president. The delegates from Chili and the Argentine Republic kept their word and they attended neither the meeting of the congress nor the president's reception and luncheon and have not yet joined the excursion which the congress is making through the country. Whether they will at any time participate in the session of the congress with Blaine as president remains to be seen. It is said Blaine knew nothing of this opposition.

The Private and the General Dalzell say. it was necessary in order to demonstrate that Tanner and Harrison had promised him, Daizell, the deputy commissionership of pensions. What he proposed to do was to vindicate his own veracity. He says he has plenty of ammunition left in the way of letters from Harrison and others. He is content to let the matter rest where it is without further publication, so long as Harrison has iblication, so long as Harrison by his lence admits the truth of his, Dalzell's,
